

Quality Tools, Equipment & Line Materials for the Energy Industry.

Pole Replacement Tools & Equipment

Quality tools tailored for efficient and safe pole replacement projects

TEN has a comprehensive range of tools & equipment, designed to maximise the workflow and reduce time and effort on your Pole Replacement Projects. Equipment includes but not limited too, **Pole Stands, Soil Tampers, Dirt Tarps, Rock Bags, Pole turning Tools, Pole Pullers and Line Lifter.**

Contact TEN for further information including the wider range of pole replacement tools and equipment.

Pole Stands - 4T Capacity - TEN

2 sizes available, 500mm & 850mm

- Foldable for easy storage
- Brushed aluminium
- All stands come with load rating tags and serial numbers
- Reflective tape for improved visibility
- Position locking arm - improved stability
- Safer with reduced pinch points

Large Stand
PS-AF-4T-L

Small Stand - Folded
PS-AF-4T-S

Foldable for easy storage and portability

Pole Replacement Tools & Equipment

Valve on Tube

Power in your hands,
pressure off your back

Kidney Shaped Tamping Foot

Pole Tamper - Hydraulic - Reliable

Part No. REL-TMP-Series

Makes quick work of compressing/tamping soil or earth around poles, either during installation or maintenance of pole. They are also used to compress asphalt patches, fencing, support poles for shading and general construction backfill compacting.

Reversible On/Off valve for Open and Closed-Center systems (hose-end models). Rotate trigger selector for Open and Closed-Center systems (valve on tube models).

- Standard kidney shaped foot included on all models
- Only three moving parts reduces servicing time
- Flush face couplers fitted
- Hose End Valve & Valve on Tube options available
- Various lengths available
- Replacement hoses available

The Tamp-Safe handle was designed by a professional linesman for the safety of utility workers.

Tamp-Safe handles are built with safety in mind. It puts the operator's hand in a safe position away from the hydraulic hoses.

Our innovative handle is designed to attach to most hydraulic tampers, including Reliable, Greenlee/Fairmont, and Stanley tampers.

56T Pole Puller, Hydraulic

Part No. PP-60-XHD

- Dual Cylinder Pole Puller
- 600mm hydraulic cylinder stroke
- High capacity, hydraulic powered
- Pulling utility poles up to 700mm diameter
- Force of 56 Tonne
- Grips the pole with cam-action heads with beveled teeth to provide a better grip
- Use with open-centre or closed-centre hydraulic systems
- Fitted with 7.5m hydraulic hose
- Built-in fork pockets, 2 lifting points on the head & high strength alloy chains
- Increased stability due to larger footprint
- Increased gripping capability ensures chain does not slip up pole
- Utilises existing low pressure tool circuit on lifter borer-crane
- Hydraulics: Required flow rate 5-15gpm @ 2,250 psi max.

22T Pole Puller, Hydraulic - Reliable

Part No. REL-PL-P

The REL-LP-P will make Pole Pulling with a Lifter Borer a thing of the PAST. Reduce damage and potential for injury related to pole pulling. Simple installation and operation.

Kit Includes:

- Hydraulic Cylinder with Flush Face Coupler Set
- Swivel Chain Hook Assembly
- Chain (12.7mm x 1830mm Alloy)
- Base Plate & Back Plate

Quality Tools, Equipment & Line Materials for the Energy Industry.

Pole Replacement Tools & Equipment

Dirt Tarps - Slingco

Slingco's range of heavy-duty, re-usable dirt tarps have been created with safety in mind. Keeping workers out of awkward, injury-prone positions is better for their long-term health and the company's bottom line.

You can find Slingco Dirt Tarps being used at pole change-outs, transformer terminations, as well as underground gas, telephone, and other underground utility applications.

The Dirt Tarp has the ability to move crushed rock, sand, dirt, wet cement, dig spoils, and other contaminated soil.

- Heavy-duty webbing and lifting loops
- Double stitched for reinforcement and durability
- Simply clean, dry, store, and re-use!
- Compact enough to store on truck when folded
- 4 sizes to chose from

Time saved filling holes, moving materials and cleaning up

Polesetter bags - ABG

The safest and fastest way to re-set poles and back fill

- 5:1 Safety Factor
- Available in two sizes
- Self-Standing Rugged Design
- Flow Control Discharge Spout
- Quick Fill & Rapid Release
- Top-Lift Safety Rated 5x Capacity
- Compact For Easy Storage
- Reusable & Recyclable

Pole Replacement Tools & Equipment

Ratchet Strap style - Hastings

Part No. 6856 Series

- Suits wood, concrete, metal and fibreglass poles
- Foam filled stick handle tested per OSHA & ASTM F-711
- 2 Nylon strap lengths available, specially designed for gripping
- Heavy duty ratchet binder with extra wide handle
- Neoprene pad on base prevents damage to poles
- Two way turning feature - can turned in both positions without reinstalling the tool

Cant Hook style - Hastings

Part No. 6705

- Suits Wood Poles
- High strength forged steel hook
- Heavy duty protective steel sleeve on head end

Strap Friction style - Chance

Part No. C305-0021

- The two-in-one tool performs the functions of both a cant hook and a pole tong without spiking the pole.
- Latex-impregnated nylon-web strap
- Epoxiglas® handle

Conductor Triple Line Lifter - LineWise

The phase lifter is an insulated crane attachment used to support up to three energized lines. The Triple Line Lifter replaces the need for temporary structures and tag lines while giving positive control of the live lines.

Part No. TLL-300

- TLL-300B direct replacement for competitor's Three phase lift assembly
- TLL-300B mounts to material handling jib of bucket truck
- No cross bracing required
- 10 minute set up time = 2 lineman and no tools required

Wire holder spacing can be easily adjusted with no tools in 3" increments
Gravity gate for easy capture & release of wire. Wear pads protect the fibreglass
