

Clean and Care Range

Rubber Goods Cleaner

Part No: RBG Series

Polywater® Rubber Goods Cleaner is a specially formulated water-based cleaner for removing grease, dirt, carbon and other grime from insulating blankets, lineman's gloves, rubber sleeves, jumpers and line-hose. It is safe for use on all natural and synthetic rubbers. Unlike other waterbased rubber cleaners Polywater® Rubber Goods Cleaner contains no hazardous ingredients and is pH neutral, making it safe for use on skin. It is also completely biodegradable and safe for the environment.

RBG Product Benefits

- Excellent Cleaner: Restores the high visibility of rubber goods
- Multiple Packages: Can be used in the field, in tool rooms, and testing facilities
- Harmless: Safe to use on EPDM and natural rubber
- Increases Reliability: Uncovers hidden damage
- Biodegradable: Environmentally friendly
- Non-toxic and non-corrosive

Dirty Earth Lead

Cleaned Earth Lead

Cleaning rubber products can prove to be very revealing. Uncover burn and cut damage on rubber protected equipment by applying an easy to use Polywater

Rubber Goods Cleaner wipe. Removing the grime can reveal problems and can prevent personal injury and potential life threatening exposure.
