Fire Retardant Material

Features

- Holds 2 Litres
- Shoulder Straps & Harness Straps; attach to fall restraint harness while working aloft or shoulder straps for ground work
- Fire retardant fabric and insulating foam
- High visibility
- Easily replaceable bladder made from medical grade vegetable gum
- Wide mouth filler with bite valve tube for flow control
- Cleaning instructions included
- Weighs 0.8kg (empty)

Use & Care

- Remove packing foam behind wide-mouthed filler
- Rinse bladder with water

To FIT Bladder

- Open bladder pocket & insert bladder with tube at base
- Ensure tube is screwed firmly into bladder outlet

To FILL Bladder

- Lift velcro closure holding filler cover, open wide-mouth filler cap
- Hold unit upright & fill with water (& ice if desired) then refit cap

To FIT Harness

- Using velcro loops at top of pack and velcro closures at both sides of base of pack, attach hydration pack to harness back straps

TIP: Wide Opening Bladder mouth allows Ice to be added to drinking fluid on hot days

Attached to harness

Ideal for ground work
