SIMPLE STRAP™

Simply the fastest & easiest way to secure rubber blankets & covers on LV & HV conductors, poles, insulators & switches.

SAFER - FASTER - EASIER

- Works when wet, in the dirt & in extreme temperatures
- Dielectrically tested
- UV Stable
- Recyclable & reusable
- Simple Strap is supplied in 30m lengths and easily cut to the size required
- Leaves no adhesive residue on blankets or covers
- Simple Strap won't damage or scratch equipment
- Simple Strap pulls tight - no knots required

Other Simple Strap sizes available - Ideal for construction, household, camping, securing timber, surfboards, canoes on roof racks & much more

3 Step Application

STEP 1.

Cut Simple Strap™ to desired length

STEP 2.

Tightly wrap Simple Strap™ around the blanket, ensure that the second wrap is in contact with or over the first wrap to allow friction to hold. Wraps at least three times to ensure a safe and secure bind

STEP 3.

To finish, simply tuck the remaining end under the last or previous wrap to secure and test the bind by pulling on the object. If the wrap is not tight or items are loose then repeat step 2.

Part No.	Description	Colour	Size (mm)	Unit of Measure	Dielectric Strength (Volts/per mm)	Weight per reel (kg)
SP-LD-YLW	Rubber Strap	Yellow	2 thick x 28 wide	30m on Plastic Reel	600	1.9

Click or Scan the QR Code to check-out the application video

NOTE: Check the Simple Strap™ before use. If its damaged or there is a nick, simply cut another length
