

iToolco Earth Rod Driver

Safely drive 12.7mm, 14mm, 16mm 19mm & 25mm earth rods into the ground in under a minute with iTOOLco's Ground Rod Driver. Once the rod is driven down far enough the tool can be used to hammer from top to finish the driving.

SDS Max

Connect to drill for secure driving

Ground Sinker

For driving the top of the ground rod when in safe reach

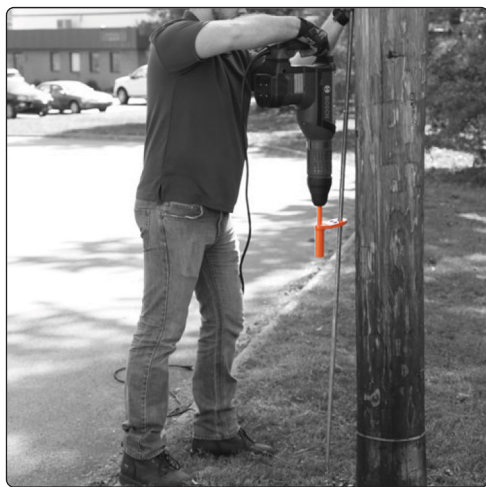

NEVER DRIVE EARTH RODS FROM A LADDER AGAIN

Features

- Drive earthing rods faster and safer
- Hardened tool steel construction for long life
- Multiple size rods can be driven (GRD01)
- SDS Max (GRD01) or Demo Hammer (GRDXL34 & GRDXL01) attachments for positive connection and secure driving of rods

THE MOST ERGONOMIC & SAFE WAY TO DRIVE RODS

Part No.	Description	Earth Rod Size (mm)	Driver shaft	Weight (kg)
GRD01	Earth Rod Driver	12.7 to 19	SDS Max	1.8
GRDXL34		19	Demo Hammer (Check with TEN for correct shaft sizing)	8.2
GRDXL01		25
