

LINE WORK BUCKET PRODUCTS

Extendable Blanket Peg - Line Workers Bucket Products

Part No. BP-1022

The extendable clamp is a versatile tool designed for high-voltage live line work, specifically for securing rubber goods. The clamp extends, making it easier to cover larger equipment.

Features

- 255mm clamp extends for better coverage
- Easily extends with one hand
- Glove friendly
- Extends to work on: Cross-Arms, Transformer Dropper Arms, Load Break Switch's, and Large Glass Insulators & much, much more
- When retracted it retains its ability to securely hold blankets on smaller apparatus
- Spring force of 45 psi
- 130mm clamp spread
- Dimensions: 255mm (Extends to 300mm)
